In honor of the F1 world championship victory on October 14, 2003, a symbol of the Ferrari myth, the Cavallino, stands in downtown Maranello.

Enzo Ferrari's determination and sportsmanship led several artists to create works in his honor. Aside from the Maranello City Hall is a bronze statue depicting the most significant stages of his life.

A reproduction of the signature "Ferrari" has been placed in Piazza Libertà, while at the entrance to Ferrari Park, the sculpture "My World in the World."

One of the places in Maranello most photographed by tourists.

It is a green oasis, located in Piazza Unità d'Italia, built near the historic Ferrari plant. A real Ferrari road car body has been placed inside it.

FERRARI SPORTS MANAGEMENT

Style, functionality and efficiency. The "Gestione Sportiva" plant consists of five basic departments: quality, electronics, gearbox assembly, engines and vehicle.

In addition, the general warehouse, washing department, crate preparation, wheel washing, remote garage, KERS, FIA bench, PIT Stop Area and systems. Here, cars that compete in the F1 championship are finalized.

COMMEMORATIVE WORKS

HISTORICAL ROOTS: MARANELLO AND SURROUNDINGS

ANCIENT VILLAGE OF TORRE MAINA

A jewel of ancient beauty located on the Modena hills, just a few kilometers from Maranello.

Today, the Borgo Antico di Torre Maina, is part of the "Maranello Resort" project; a resort built in an innovative key, which gives the opportunity to stay inside the ancient tower from one side and on the other hand relive historical moments of the Ferrari brand.

THE LIBRARY "THE MABIC"

The MABIC is the library in downtown Maranello with a unique and modern design.

Designed by architects Arata Isozaki and Andrea Maffei, the building features large shaped windows that follow the curved lines of the structure and offer a very impressive view, thanks to the surrounding walls covered with greenery.

THE VIA VANDELLI

The ancient Via Vandelli was built in 1738 to connect Modena with Massa via the Apennine pass and the Apuan Alps.

Seven stages, three ducal palaces, a fortified Este town, countless towers, churches, villages and vast views. For those who love trekking and being outdoors, this is the perfect route.

CHURCH OF SAN BIAGIO

The Maranello Church of San Biagio (the patron saint) was inaugurated in 1899 and is much loved by the locals; it is a tradition for the bells to ring in celebration, every time Ferrari wins.

PUIANELLO SPRINGS

Groups of muddy geothermal phenomena, which develop along the Rio delle Sarse, like small volcanoes. In most of them a bituminous substance escapes, which consequently creates characteristic circular "rings."

Today it is possible to visit the Salse di Puianello, but only along the route indicated on the site.
